NOTES:

HOW TO USE THESE VERSES

Writing out verses is an incredible way to slow yourself down and take time with the words & meaning. It's a prayerful process to approach the Word of God in a slower method than simply reading.

Consider using the same journal throughout the year for your scripture writing.

Before you begin each day, take a moment and pray for wisdom and any personal application the Lord has for you through the passage.

Take your time! Write the verse out slowly. Do any words or phrases stand out to you?

Try journaling! Let the verse be a starting point and then continue writing out your prayer to the Lord. Bring to Him your joy, your lament, your celebration, your questions. There's no wrong way to do this.
